## CES Company Overview

- CES was formed in 2001 to provide an easy resource between those in need of remedial support services and those qualified companies that can provide the equipment, technology and/or contracting services necessary to complete the task at hand.
- 20+ years personal experience in the environmental remediation business has given me the experience and insight to identify and form partnerships with contractors and technologies that have the health & safety records, insurance and qualifications for any site and client.
- Projects throughout North America with a concentration of services within the Great Lakes Region.
- CES is striving to find the highest quality of services and technologies to offer a viable option for any environmental remediation project.

## CES Contracting Services

- Rapid Response
- Remediation Systems
  - Above/Below Grade Installation
  - O & M Services
  - Panel design/installation
  - Carbon change outs
- Landfill
  - Cell construction
  - Cap construction
  - Methane/Leachate collection const.
  - Waste excavation & relocation
  - Flare installation
- Brownfield redevelopment
- Site Remedial activities
  - Haz/non haz soil excavation
  - Dewatering
  - Below grade pipe installation
  - MGP site clean up
  - Lagoon closures
  - Sewer/Pipe lining (CIPP - Cured in Place Piping)
  - Permeable barrier wall installation
- Superfund clean up
- Abatement
  - Asbestos abatement
  - Mold abatement

## CES Technologies and Related Services

- iSOC Technology
  - Gas infusion
    - Down well isoc technology
    - Above or below grade G-Pro units
  - NAPL Recovery
- EOS Remediation
  - EOS® (oil reductive dechlorination)
  - AquaBupH™ (combined soybean oil-solid pH buffer emulsion)
  - EOx™ (oxygen release compound)
- Zero valent iron
- Treatability Studies
- In-situ and ex-situ remediation
- Oxidation
  - Sodium Persulfate
  - Sodium & potassium permanganate
  - Hydrogen peroxide
  - Ozone
- Metals stabilization
  - Cadmium, lead, zinc
  - Arsenic, antimony, selenium
  - Chromium

## CES Technologies and Related Services

### Professional Services

Electrical engineering (& licensed electricians)

Design consultation & assistance (construction, remediation systems and technology related)

### Environmental Products:

Activated Carbon

Free Flow 100 - Heavy metal treatment reagents

Bentonite

GSE Synthetic Liners

Sodium Bicarbonate

### Equipment Related Services:

Vacuum trucks

Truck & trailer mounted pilot test units

Truck & trailer mounted NAPL recovery units

Remediation systems (rent or purchase)

Skid mounted

Trailer mounted

Shed construction

Equipment

Injection trailers & assoc. equipment

Water treatment equipment

Operated excavation equipment

8248 Hidden Forest Drive, Holland, Ohio 43528

CEMCOR ENVIRONMENTAL SERVICES (CES)

## Contracting Services

**Catskill Remedial Services (Catskill)**

*Landfill and “yellow iron” specialists*

**Chemviron Midwest**

*Remediation equipment, O&M, pilot trailers & vac trucks*

**Orin Remediation Technologies**

*Chemical injection specialists*

## Remediation Technologies

**inVentures Technology**  ([www.isocinfo.com](http://www.isocinfo.com))

*iSOC & Gpro gas infusion technology (any gas - including **CO2** injection for NAPL recovery)*

**EOS Remediation** ([www.eosremediation.com](http://www.eosremediation.com))

*EOS - Emulsified oil substrate for chlorinated contaminants*

*EAS – Magnesium Sulfate for anaerobic treatment of petroleum contaminants*

*EOx – Oxygen release compound for aerobic treatment of contaminants*

8248 Hidden Forest Drive, Holland, Ohio 43528

Phone 419.867.8966 Fax 419.867.8976 Cell 419.349.7970

CEMCOR ENVIRONMENTAL SERVICES (CES)

## Associate Companies and Services

### Ecological Services

*Asbestos & mold abatement contracting services*

### Resolution Partners

*Technical resource & implementation experts for the “complex” sites  
(excellent teaming partners for those small to medium size companies who do not have the internal technical resources for a specific situations)*

### J Carpenter Environmental

*Environmental products such as; activated carbon, bentonite,  
synthetic liners & sodium bicarbonate*

### Marelco Control Systems

*Electrical engineering for design, consultation, installation & trouble shooting*

### Applied Sciences Technology

*Ozone treatment*
